Planning Commission to Hold a Study Session on Artificial Turf in the Single Family Residential Zone

LA PALMA, Calif. – The City's current residential landscape standards do not allow for artificial turf to be installed in front and side yards of homes. At the upcoming City Council meeting on February 3, the Planning Commission will be presented with a report highlighting artificial turf properties, benefits, and concerns. Several alternatives will be presented to the Planning Commission for consideration to direct Staff on how to proceed with a possible amendment to the City Code to permit artificial turf in front and side yards. Residents and other interested parties are encouraged to attend the meeting. The meeting begins at 7:00 pm.
