La Palma to Host Water Conservation Workshop

LA PALMA, Calif. – The City of La Palma will conduct a workshop on December 7 to educate residents about the importance of water conservation. Representatives from the City's Public Works Department and the Municipal Water District of Orange County (MWDOC) will be discussing water conservation goals and will provide consumer tips for further water conservation. The City's Community Development Director will also present an overview of the City's proposed Water Efficient Landscaping Ordinance, which is scheduled for City Council approval on December 15. The workshop will be held at 6:00p.m. in the Sago Palm Room of the La Palma Community Center, 7821 Walker Street, La Palma.

Governor Schwarzenegger signed a new water conservation law in November that aims to reduce the State's urban water usage by 20% before 2020. Public Works Director/City Engineer Jeff Moneda said, "Education on water conservation is important if the community is going to meet the statewide reduction goal." For more information about the workshop, please visit www.cityoflapalma.org or contact the Public Works Department at (714) 690-3310.

About the City of La Palma
