## **La Palma to Consider Options to Address Height Extensions to Arterial Block Walls**

*LA PALMA, Calif.* – In preparation of painting arterial block walls in the community, the City Council will be considering options on how to address a number of height extensions that exist along several of the arterial streets throughout the City. Most of the height extensions, consisting of lattice or additional rows of block, do not comply with the City Code. At the upcoming City Council meeting on Tuesday, December 1, the City Council will be considering several options in how best to address this matter prior to starting the wall painting project. The meeting begins at 7:00 p.m. in the City Hall Council Chambers located at 7822 Walker Street. Interested residents are encouraged to attend the meeting.

For further information, please contact the Community Development Department at (714) 690-3336.
