Alternative proposals will not be considered unless called for. No oral, telegraphic or telephonic proposals or modifications will be considered. The City reserves the right to reject any and all Bids.

WITHDRAWAL OF PROPOSAL: The proposal may be withdrawn upon request by the bidder without prejudice to himself prior to, but not after, the time fixed for opening of bids, provided that the request is in writing, has been executed by the Bidder or his or her duly authorized representative and is filed with the City Engineer prior to the scheduled closing time for receipt of Bids. The bidder whose proposal is accepted must enter into a contract within fifteen (15) days after written notice of the award and furnish the necessary bonds and insurance as hereinafter provided. In case of refusal or failure to enter into said contract, the cash, check or bond, as the case may be, shall be forfeited to the City. No bidder's bond will be accepted unless it conforms substantially to the form furnished by the City, which is bound herein, and is properly filled out and executed.

DISCREPANCIES IN PROPOSALS: In case of discrepancy between words and figures, the words shall prevail. If the amounts bid on individual items (if called for) do not add up to the total amount shown by the bidder, the correctly added total of the individual items shall prevail over the total figure shown by the bidder if there is a discrepancy between these figures. The estimated quantities and amount are for the purpose of comparison of bids only.

INTERPRETATION AND ADDENDA: Each Bidder shall promptly and in writing, notify the City of any conflicts, errors, omissions, ambiguities or discrepancies found in the bidding documents. Full consideration shall be given to all Addenda in preparation of Proposals, as Addenda form a part of the Contract Documents. Bidders shall verify the number of Addenda issued, if any, and acknowledge the receipt of all Addenda in the Bid. Failure to so acknowledge may cause the Bid to be rejected.

COMPETENCY OF BIDDERS: In selecting the lowest responsible bidder, consideration will be given not only to the financial standing but also to the general competency of the bidder for the performance of the work covered by the proposal. To this end, each proposal shall be supported by a statement of the bidder's experience on the form entitled "Information Required of Bidder" bound herein. No proposal for this work will be accepted from a Contractor who is not licensed in accordance with the laws of the State of California under applicable provisions of the Business and Professions Code. The licensing requirements for Contractors shall apply also to subcontractors.

BIDDER'S EXAMINATION OF SITE: Each bidder shall examine carefully the site of the proposed work and the Contract Documents therefor. It will be assumed that the bidder has investigated and is satisfied as to the conditions to be encountered; as to the character, quality and quantity of materials to be furnished; and as to the requirements of the Contract Documents, specifications, and drawings. The name of the individual who examined the site of the work and the date of such examination shall be stated in the form entitled "Information Required of Bidder" in the space provided therefore.

DISQUALIFICATION OF BIDDERS: More than one proposal from an individual, firm partnership, corporation, or association under the same or different names will not be considered. Reasonable grounds for believing that any bidder is interested in more than one proposal for the work contemplated will cause the rejection of all proposals in which such bidder is interested. If there is reason for believing that collusion exists among the bidders, all bids will be rejected and none of the participants in such collusion will be considered in future proposals.

RETURN OF PROPOSAL GUARANTEES: Within ten (10) days after award of the contract, the City will return the proposal guarantees accompanying such of the proposals as are not considered in making the award. All other proposal guarantees will be held until the contract has been finally executed. They will then be returned to the respective bidders whose proposals they accompany.

AWARD OF CONTRACT: Bids will be compared on the basis of the lowest cost and the contract, if awarded, will be awarded to a responsible bidder whose proposal complies with the requirements of these Contract Documents. The award, if made, will be made within sixty (60) days after the opening of the proposals, provided that the award may be made after said period if the successful bidder shall not have given the City written notice of the withdrawal of his or her bid. The City reserves the right, after opening bids, to reject any

and all bids, to waive any informality in a bid, to make awards in the interest of the City, and to reject all other bids.

EXECUTION OF CONTRACT: The bidder to whom award is made shall execute a written contract with the City on the Agreement provided in the Contract Documents, and shall secure all insurance and bonds as herein provided within ten (10) days from the date of written notice of the award.

Failure or refusal to enter into a contract as herein provided, or to conform to any of the stipulated requirements in connection therewith shall be just cause for the annulment of the award and the forfeiture of the proposal guarantee. If the successful bidder refuses or fails to execute the contract, the City may award the contract to the second lowest responsible bidder. If the second lowest responsible bidder refuses or fails to execute the contract, the City may award the contract to the third lowest responsible bidder. On the failure or refusal of such second or third lowest bidder to execute the contract, such bidder's guarantee shall be likewise forfeited to the City. The work may then be re-advertised.

INSURANCE AND BONDS: The Contractor shall comply with the insurance requirements in the General Provisions which are incorporated herein by this reference. The Contractor shall not commence work under the contract until he or she has secured all insurance and bonds required under the Contract Documents, nor shall the Contractor allow any subcontractor to commence work on a subcontract until all similar insurance required of the subcontractor has been obtained. All insurance issued in compliance with this section shall be issued in the form, and by an insurer or insurers, satisfactory to and first approved by the City in writing.

The Contractor shall maintain adequate workers' compensation insurance under the laws of the State of California for all labor employed by him or her or by any subcontractor under him or her who may come within the protection of such workers' compensation insurance laws. At the time of execution of the contract, the Contractor shall provide the certificate regarding workers' compensation insurance as indicated in Page I-1 of these Contract Documents.

The Contractor shall secure with a responsible corporate surety or corporate sureties, satisfactory bonds guaranteeing faithful performance by the Contractor of all requirements under these Contract Documents and upon the payment of claims of material, persons and laborers thereunder. The labor and material bond shall be in the sum of not less than one hundred percent (100%) of the estimated aggregate amount of the payments to be made under the contract computed on the basis of the prices stated in the proposal. No bond will be accepted unless it conforms substantially to the forms furnished by the City, which are bound herein, and is properly filled out and executed.

All surety companies shall be admitted surety insurers and shall comply with the provisions of Code of Civil Procedure Section 995.630.

EVIDENCE OF RESPONSIBILITY: Upon the request of the City, a bidder whose bid is under consideration for the award of the contract shall submit promptly to the City satisfactory evidence showing the bidder's financial resources, his or her construction experience and his or her organization and plant facilities available for the performance of the contract.

WITNESSETH:

RECITALS: This Agreement is made and entered into with respect to the following facts:

That City desires to obtain through the Contractor the services set forth and described in the Scope of Work attached hereto as Exhibit “A” and incorporated herein by this reference (hereinafter, the “Contractor Services”).

SERVICES:

Provision of Contractor Services: During the term of this Agreement, the Contractor shall provide the Contractor Services as set forth in Exhibit “A.” Time is of the essence for this Agreement.

The Contractor shall perform such Additional Services, and compensation for the work performed shall be paid by the City in accordance with the Budget and Fee Schedule attached hereto as Exhibit “B” and incorporated herein by this reference, or as otherwise may be agreed in writing by the City and the Contractor. It is expressly understood by the Contractor that the provisions of this Section 2(b) shall not apply to services specifically set forth in Exhibit “A” or reasonably contemplated therein. The Contractor hereby acknowledges that it accepts the risk that the services to be provided contrary to the Scope of Services may be more costly or time consuming than the Contractor anticipates and that the Contractor shall not be entitled to additional compensation therefor. Unless contradictory of this Section 2(b), all provisions in this Agreement applicable to the Contractor’s performance of the Contractor Services shall also apply to the Additional Services.

Labor, Equipment, Materials: The Contractor shall equip itself with all necessary labor, equipment and materials to perform the services specified in this Agreement. The Contractor represents that the Contractor Services will be performed by the Contractor or under its direct supervision, and that all personnel engaged in such work shall be fully qualified and shall be authorized and permitted under applicable Federal, State and local law to perform such tasks and services. The Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of the Contractor Services and as required by law. The Contractor shall at all times ensure that all goods, materials, equipment or personal property included within the Contractor Services shall be of good quality, fit for the purpose intended.

The City shall have the right to control the Contractor only as to results of the Contractor's services rendered pursuant to this Agreement, and the City shall not have the right to control the means by which the Contractor accomplishes the services performed under this Agreement.

Invoices shall include billings for all charges, including authorized direct costs incurred by the Contractor during the month covered by the invoice. All charges for labor or professional services shall describe with specificity the services rendered and shall set forth the number of hours worked and hourly rates in accordance with Exhibit "B". Within thirty (30) days of receipt of an invoice, and upon determination by the City that the invoice is in order and that the Contractor has performed all requested or required services in a timely and competent manner, the City shall pay such invoice.

Record of Payment. The Contractor shall maintain records on all services for and charges to the City under this Agreement for a period of not less than twenty-four (24) months, or for any longer period required by law, after the termination of this Agreement, and make such records available for review and audit if requested by the City at any time during the term, or within twenty-four (24) months, or for any longer period required by law, after the termination of this Agreement. All such records shall be maintained in accordance with generally accepted accounting principles and shall be clearly identified and readily accessible.

The Contractor shall have the sole obligation to pay for any fees, assessments, and taxes, plus applicable penalties and interest, which may be imposed by law and arise from or are necessary for the Contractor's performance of the Contractor Services, and shall indemnify, defend and hold harmless the City and City Personnel against any such fees, assessments, taxes, penalties or interest levied, assessed, or imposed against the City hereunder.

INSURANCE AND LIABILITY: The Contractor shall not commence work under this Agreement until it has secured all types and amounts of insurance required under this Section, nor shall it allow any subcontractor to commence work on any subcontract to this Agreement until all similar insurance required of the subcontractor has been obtained. Without limiting the Contractor's indemnification obligations, the Contractor shall procure and maintain, at its sole cost and for the duration of this Agreement, insurance coverage as provided below, against all claims for injuries against persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Contractor, its agents, representatives, employees, and/or subcontractors. In the event that the Contractor subcontracts any portion of the work, the contract between the Contractor and such subcontractor shall require the subcontractor to maintain the same policies of insurance that the Contractor is required to maintain pursuant to this Section.

Insurance Coverage Required: The policies and amounts of insurance required hereunder shall be as follows:

Such policy or policies shall include the following terms and conditions:

- A drop-down feature requiring the policy to respond in the event that any primary insurance that would otherwise have applied proves to be uncollectable in whole or in part for any reason;
- Pay on behalf of wording as opposed to reimbursement;
- Concurrency of effective dates with primary policies;
- Policies shall "follow form" to the underlying primary policies; and
- Insureds under primary policies shall also be insureds under the umbrella or excess policies.

Commercial General Liability, Automobile Liability, and Employer's Liability shall name the City, and its elected and appointed boards, members, officials, officers, agents, representatives, employees, and volunteers (collectively hereinafter "City and City Personnel") as additional insureds and contain no special limitations on the scope of protection afforded to the City and City Personnel. All insurance provided hereunder shall include the appropriate endorsements.

All insurance policies shall be primary insurance and any insurance or self-insurance maintained by the City and/or City Personnel shall be in excess of the Contractor's insurance and shall not contribute with it.

All insurance policies shall be "occurrence" rather than "claims made" insurance.

All insurance policies shall apply separately to each insured against whom a claim is made or suit brought, except with respect to the limits of the insurer's liability.

All insurance policies shall be endorsed to state that the insurer shall waive all rights of subrogation against the City and City Personnel.

All insurance policies shall be written by good and solvent insurer(s) admitted to do business in the State of California and approved in writing by the City.

All insurance policies shall be endorsed to state that coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits, non-renewed, or materially changed for any reason, without thirty (30) days prior written notice thereof given by the insurer to the City by U.S. mail, or by personal delivery, except for nonpayment of premiums, in which case ten (10) days prior notice shall be provided.

All insurance policies shall state that the City shall not be liable for the payment of premiums or assessments under the policy.

Insurance policies shall not contain any limiting provision or endorsement that has not been submitted to the City for approval. By way of example, additional insured endorsements shall not be limited to "ongoing operations," exclude contractual liability, restrict coverage to the "sole" liability of the Contractor, or contain any other limitation contrary to this Agreement.

Deductibles: Any deductibles or self-insured retentions must be declared to and approved by the City. The City reserves the right to require that self-insured retentions be eliminated, lowered, or replaced by a deductible. Self-insurance will not be considered to comply with these specifications unless approved in writing by the City.

Evidence of Coverage: The Contractor shall furnish the City with certificates of insurance demonstrating the coverage required by this Agreement which shall be received and approved by City not less than five (5) working days before work on the Contractor Services commences. At least thirty (30) days prior to the expiration of any policy of insurance required under this Agreement, a signed complete certificate of insurance, with all endorsements provided herein, showing that such insurance coverage has been renewed or extended, shall be filed with the City.

Workers Compensation Insurance: The Contractor shall file with City the following signed certification:

“I am aware of, and will comply with, Divisions 4 and 5 of the California Labor Code by securing, paying for, and maintaining in full force and effect for the duration of the Agreement, complete Workers’ Compensation Insurance, and shall furnish a Certificate of Insurance to City before execution of the Agreement.”

In the event the Contractor has no employees requiring the Contractor to provide Workers’ Compensation Insurance, the Contractor shall so certify to the City in writing prior to the City’s execution of the Agreement. The City and City Personnel shall not be responsible for any claims in law or equity occasioned by failure of the Contractor to comply with this section or with the provisions of law relating to workers’ compensation.

Default of Insurance Requirements: In addition to any other remedies at law or equity the City may have if the Contractor fails to provide or maintain any insurance policies or policy endorsements to the extent and within the time required by this Section, the City may, at its sole option, exercise any of the following remedies, which are alternatives to other remedies the City may have and are not the exclusive remedy for the Contractor’s breach: (1) Obtain such insurance and deduct and retain the amount of the premiums for such insurance from any sums due under this Agreement; (2) that becomes due to the Contractor hereunder, or both, until the Contractor demonstrates compliance with the insurance requirements herein; and/or (3) Immediately terminate this Agreement.

INDEMNIFICATION:

The Contractor shall indemnify, defend with legal counsel approved by the City, and hold harmless the City, City Personnel from and against all liability, loss, damage, expense, cost (including without limitation reasonable legal counsel fees, expert fees and all other costs and fees of litigation) of every nature (“Claims”) arising out of or in connection with the Contractor’s negligence, recklessness or willful misconduct in the performance of work hereunder or its failure to comply with any of its obligations contained in this Agreement, except such loss or damage which is caused by the sole or active negligence or willful misconduct of the City. Should conflict of interest principles preclude a single legal counsel from representing both the City and the Contractor, or should the City otherwise find the

Contractor's legal counsel unacceptable, then Contractor shall reimburse the City its costs of defense, including without limitation reasonable legal counsel fees, expert fees and all other costs and fees of litigation. The Contractor shall promptly pay any final judgment rendered against the City (and its officers, officials, employees and volunteers) with respect to Claims determined by a trier of fact to have been the result of the Contractor's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California and will survive termination of this Agreement.

The Contractor's obligations under this section apply regardless of whether such claim, charge, damage, demand, action, proceeding, loss, stop notice, cost, expense, judgment, civil fine or penalty, or liability was caused in part or contributed to by the City or City Personnel. However, without affecting the rights of the City under any provision of this agreement, the Contractor shall not be required to indemnify and hold harmless the City for liability attributable to the active negligence of the City, provided such active negligence is determined by agreement between the Parties or by the findings of a court of competent jurisdiction. In instances where the City is shown to have been actively negligent and where the City's active negligence accounts for only a percentage of the liability involved, the obligation of the Contractor will be for that entire portion or percentage of liability not attributable to the active negligence of the City.

The Contractor hereby authorizes the City to deduct from any amount payable to the Contractor (whether arising out of this Agreement or otherwise) any amounts the payment of which may be in dispute hereunder or which are necessary to compensate the City for any losses, costs, liabilities, or damages suffered by the City, and all amounts for which the City may be liable to third parties, by reason of the Contractor's negligent acts, errors, or omissions, or willful misconduct, in performing or failing to perform the Contractor's obligations under this Agreement. The City in its sole and absolute discretion, may withhold from any payment due to the Contractor, without liability for interest, an amount sufficient to cover such claim. The failure of the City to exercise such right to deduct or withhold shall not act as a waiver of the Contractor's obligation to pay the City any sums the Contractor owes the City.

OBSERVING LAWS AND ORDINANCES: The Contractor shall keep itself fully informed of all existing and future state and federal laws and all county and City ordinances and regulations which in any manner affect the conduct of the work, and of all such orders and decrees of bodies or tribunals having any jurisdiction or authority over same. If any discrepancy or inconsistency is discovered in this Agreement in relation to any such law, ordinance, regulation, order or decree, the Contractor shall forthwith report the same to the City Representative in writing. The Contractor shall at all times observe and comply with and shall cause all its agents and employees to observe and comply with all such existing and future laws, ordinances, regulations, orders and decrees, and shall protect, indemnify, hold harmless, and defend to the fullest extent permitted by law the City and City Personnel, and the City Representative, and all of their respective officers, employees, and representatives against any claim or assertion of liability, or liability arising from or based on the violation of any such law, ordinance, regulation, order or decree, whether by the Contractor or by its agents, representatives, employees, or subcontractors.

NON-DISCRIMINATION: The Contractor shall not discriminate against any employee or applicant for employment because of any impermissible classification pursuant to Federal or State

law, including, but not limited to, race, color, religion, national origin, gender, physical or mental disability, age, military status, sexual orientation, gender identity, gender expression, or marital or familial status. The Contractor shall incorporate the foregoing provisions in all subcontracts..

PATENTED AND COPYRIGHTED MATERIALS: The Contractor shall assume all costs arising from the use of patented or copyrighted materials, including but not limited to equipment, devices, processes, and software programs, used or incorporated in the services or work performed by the Contractor under this Agreement. Pursuant to Section 8 herein, the Contractor shall indemnify, defend (with legal counsel acceptable to the City), and hold the City and City Personnel harmless from any and all suits, actions, or proceedings of every nature for or on account of the use of any patented or copyrighted materials.

PREVAILING WAGE REQUIREMENTS:

It is agreed by the Parties that, in connection with the development, construction (as defined by applicable law) and operation of the project, including, without limitation, any public work (as defined by applicable law), if any, the Contractor shall bear all risks of payment or non-payment of state and/or federal prevailing wages and/or the implementation of Labor Code Sections 1726 and 1781, as the same may be enacted, adopted or amended from time to time, and/or any other provision of law. To the extent applicable, the City will enforce all penalties required by law for the Contractor’s failure to pay prevailing wages.

The Contractor is aware of and will comply with the provisions of Labor Code Sections 1777.5 and 1777.6 with respect to the employment of apprentices. Pursuant to Section 1777.5 it is hereby stipulated that the Contractor will be responsible for obtaining compliance therewith on the part of any and all sub-Contractors or subcontractors employed by him or her in connection with this Agreement.

Pursuant to Labor Code Section 1775, it is hereby stipulated that the Contractor shall, as a penalty to the City, forfeit not more than \$200 for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of Industrial Relations for the work or craft in which the worker is employed for the Contractor Services by the Contractor or any sub-Contractor or subcontractor.

The Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of this Agreement. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstatement of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers, and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by the Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been transferred or assigned to the City by separate agreement and the Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. This provision may be waived in Exhibit A if the Contractor Services hereunder do not include construction of any improvements or the supplying of equipment or materials.

This Agreement shall be binding upon the heirs, executors, administrators, successors, and assigns of the Parties.

NO WAIVER: No waiver by either Party of any of the provisions of this Agreement shall be effective unless explicitly set forth in writing and signed by the Party so waiving. Except as otherwise set forth in this Agreement, no failure to exercise, or delay in exercising, any right, remedy, power or privilege arising from this Agreement shall operate or be construed as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege hereunder

preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege.

NO THIRD-PARTY BENEFICIARIES: This Agreement benefits solely the Parties to this Agreement and their respective permitted successors and assigns and nothing in this Agreement, express or implied, confers on any other person any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

NON-LIABILITY OF CITY PERSONNEL: No City Personnel shall be personally liable to the Contractor, or any successor in interest, in the event of any default or breach by the City, or for any amount which may become due to the Contractor or its successor, or for breach of any obligation of the terms of this Agreement.

to give this bond in connection with the execution of said contract.

NOW, THEREFORE, if said Contractor shall well and truly do and perform all the
covenants and obligations of said contract on his or her part to be done and performed at
the time and in the manner specified herein, including but not limited to the provisions
regarding contract duration and liquidated damages, then this obligation shall be null and
void; otherwise, it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract, the above
obligation shall hold good for a period of one (1) year after the acceptance of the Work by
the City, during which time if the Contractor shall fail to make full, complete, and

work progresses (even though there should be a default or succession of defaults
under the Contract or Contracts of completion arranged under this Paragraph)
sufficient funds to pay the cost of completion less the balance of the contract price,

but not exceeding, including other costs and damages for which Surety may be liable hereunder, the amount set forth in the first executory Paragraph hereof. The term "balance of the contract price" as used in this Paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modifications thereto, less the amount properly paid by the City to the Contractor.

Surety expressly agrees that the City may reject any contractor or subcontractor (in accordance with the Contract Documents for this Contract) that may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor. The Surety shall not use the Contractor herein in completing the Contract nor shall the Surety accept a Bid from that Contractor for the completion of the Work if the City, when declaring the Contractor in default, notifies the Surety of the City's objection that that Contractor's further participation in the completion of the Work.

No right of action shall accrue on this bond to or for the use of any person or corporation other than the City named herein or the successors or assigns of the City.

Surety and Contractor shall provide City notice thirty (30) calendar days prior to any modification, renewal, or termination of this bond.

PROVIDED, that any alterations in the work to be done, or the material to be furnished, which may be made pursuant to the terms of said contract, shall not in any way release said Contractor or the Surety thereunder, nor shall any extension of time granted under the provisions of said contract release either said contractor or said Surety and notice of such alterations or extensions of the contract is hereby waived by said Surety.

In the event suit is brought upon this bond by said City and judgment is recovered, said Surety shall pay all costs incurred by said City in such suit, including reasonable attorney fees to be fixed by the Court.

CITY OF LA PALMA
GENERAL PROVISIONS

SECTION 1. INTENT

The Contract Documents are complementary, and what is called for by one part shall be as binding as if called for by all. The intent of the Contract Documents is to include all work consistent therewith and reasonably inferable therefrom as being necessary for completion of the contract and to provide a functionally complete Project. The Contract Documents are intended to include all items necessary for the proper execution and completion of the Project. Materials or work described in words that indicate the proper execution and a well-known technical or trade designation shall be held to refer to such recognized standards. It is understood and agreed that the written terms and provisions of the Contract Documents represent the entire and integrated agreement between the parties hereto and supersede all prior negotiations, representations, or agreements, either written or oral.

SECTION 2. PRECEDENCE OF CONTRACT DOCUMENTS

In resolving inconsistencies or ambiguities among two (2) or more components of the Contract Documents, highest precedence shall be given to the Agreement and decreasing order as follows:

1. Specifications and Drawings
2. Special Provisions
3. Technical Provisions
4. General Provisions
5. Agreement
6. Instructions to Bidders
7. Notice Inviting Sealed Bids
8. Other Contract Documents
9. Standard Specifications (as hereinafter incorporated)

SECTION 3. STANDARD SPECIFICATIONS

The general provisions which shall apply to this contract include the provisions found in Part 1 – General Provisions of the Standard Specifications for Public Works Construction, latest edition plus any supplements at the time the Notice Inviting Sealed Bids is signed by the City Engineer, published by BNi Publications, Inc., 1612 S. Clementine Street, Anaheim, California 92802 (hereinafter referred to as the "Standard Specifications"). Part 1 – General Provisions of the Standard Specifications is incorporated herein as truly as if fully set forth herein, except as modified by the Contract Documents. Where provisions of the Standard Specifications and the Contract Documents conflict, the Contract Documents shall prevail.

Wherever in the Standard Specifications the terms below are used, they shall be understood to mean and refer to the following:

- (a) "Agency" means and refers to the City of La Palma, California.
- (b) "Board" means and refers to the La Palma City Council.
- (c) "Engineer" means and refers to the La Palma City Engineer, acting either directly or through authorized agents.
- (d) Other terms appearing in Part 1 – General Provisions of the Standard Specifications shall have the intent and meaning specified in Section 1 of the Standard Specifications.

SECTION 4. LEGAL ADDRESS OF CONTRACTOR

The address given in the Contractor's proposal on which the contract is founded is hereby designated as the place to which all notices, letters and other communications to the Contractor shall be mailed or delivered. The mailing to or delivering at the above named place of any notice, letter or other communication to the Contractor, shall be deemed sufficient service thereof upon the Contractor. The date of said service shall be the date of deposit in a United States mail depository or of personal delivery to said address. Such address may be changed at any time by a written notice signed by the Contractor and delivered to the City Engineer.

SECTION 5. PAYMENTS

Attention is directed to subsection 9-3 of the Standard Specifications for partial payment and final payment provisions. No partial payment will be made for any materials on hand which are furnished but not incorporated in the work.

SECTION 6. PAYMENTS TERMINATING LIABILITY

Pursuant to Public Contract Code Section 7100, payment of undisputed contract amounts is contingent upon the Contractor furnishing the City with a written release of all claims against the City and its officials, officers, employees, agents, and volunteers (collectively "City Personnel") arising by virtue of the public works contract related to those amounts. Disputed contract claims in stated amounts may be specifically excluded by the Contractor from the operation of the release.

Notwithstanding the foregoing, the Contractor's acceptance of undisputed contract amounts shall act as a release of the City and City Personnel from all claims and liability to the Contractor for anything done or furnished for, or relating to, these amounts or for any act or neglect of the City or City Personnel relating to or affecting these amounts, except the claim against the City for the remainder, if any, of the amounts kept or retained as provided in subsection 9-3 of the Standard Specifications, unless the Contractor specifically provides written notice that it accepts said amounts under protest. If the Contractor accepts said amounts under protest, the Contractor shall not deposit said amounts for ten (10) days during which time the City may withdraw the funds.

SECTION 7. MONIES TO BE RETAINED

The Contractor's attention is called to subsection 9-3.2 of the Standard Specifications which sets the payment deduction and retention schedule applicable to the Project. Pursuant to Public Contract Code section 9203, the City shall withhold not less than five percent (5%) of the contract price until final completion and acceptance of the Project.

Notwithstanding the foregoing, the City may keep any monies which would otherwise be payable at any time hereunder and apply the same, or so much as may be necessary therefor, to the payment of any expense, losses or damages, as determined by the City Engineer, incurred by the City, for which the Contractor is liable under the Contract Documents.

SECTION 8. RECOVERY OF DAMAGES

The making of an estimate and payment in accordance therewith shall not preclude the City from demanding and recovering from the Contractor such damages as it may sustain by reason of the Contractor's failure to comply with the Contract Documents.

SECTION 9. PROGRESS PAYMENTS

Pursuant to Public Contract Code Section 20104.50, whenever the Contractor properly files a request for payment, and the validity of the claim is not disputed or has been settled or agreed upon, payment of the claim by the City shall include interest at the legal rate set forth pursuant to Section 685.010 of the Code of Civil Procedure if payment has not been made by the thirtieth (30th) day after the proper submission of the claim.

SECTION 10. COMPLETION OF WORK

In the event that the City Engineer shall be of the opinion that the work is being inadequately or improperly prosecuted in any respect, he or she may demand that the Contractor improve or change the prosecution of the work in such manner as to assure proper and timely completion.

SECTION 11. FINAL INVOICE AND PAYMENT

(a) Whenever in the discretion of the City Engineer the Contractor shall have completely performed the contract, the City Engineer shall notify the City that the contract has been completed in its entirety. He or she shall request that the City accept the work and that the City Clerk be authorized to file, on behalf of the City, in the office of the Orange County Recorder, a notice of completion of the work herein agreed to be done by the Contractor. The Contractor will then submit to the City Engineer for approval a written statement of the final quantities of contract items for inclusion in the final invoice. Upon receipt of such statement, the City Engineer shall check the quantities included therein and shall authorize the Contractor to submit an invoice which in the City Engineer's opinion shall be just and fair, covering the amount and value of the total amount of work done by the Contractor, less five percent (5%) of the total work done.

(b) Pursuant to Public Contract Code section 7107, within thirty-five (35) days after the filing of the notice of completion of the work, the City shall pay to the Contractor the remaining retained amounts after deducting from the amount or value stated in the invoice all prior payments to the Contractor and all amounts to be kept and retained under the provisions of the contract, and shall release the faithful performance bond and the labor and material bond. In the event of a dispute between the City and the Contractor, the City may withhold from the final payment an amount not to exceed one hundred fifty percent (150%) of the disputed amount.

(c) The Contractor may substitute securities for any monies withheld under this section in

compliance with the requirements of Public Contract Code Section 22300 and the "Substitution of Securities" provisions of the General Provisions.

SECTION 12. UNPAID CLAIMS

The Contractor's attention is drawn to Civil Code Division 3, Part 4, Title 15, Chapter 4 titled "Stop Notice for Public Work" (beginning with section 3179). The following provisions are to be read consistently with said Chapter 4 and to incorporate said Chapter 4 to the extent applicable. If, upon or before the completion of the work herein agreed to be performed or at any time prior to the expiration of the period within which claims of lien may be filed for record, any person or persons claiming to have performed any labor or furnished any material, supplies or services toward the performance or completion of this contract, or that they have agreed to do so, shall timely file with the City a verified statement of such claim, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, together with a statement that the same has not been paid, or if any person or persons shall bring against the City or against any agent or agents thereof any action to enforce such claim, the City shall until the discharge thereof withhold from the monies under its control so much of said monies due or to become due the Contractor under this contract as shall be sufficient to satisfy and discharge the amount in such notice or under such action claimed to be due, together with the costs thereof; provided, that if the City in its discretion permits the Contractor to file an additional bond in a penal sum equal to one and one-fourth times (125%) the amount of said claim, said monies shall not thereafter be withheld on account of such claim. A claimant shall not be entitled to enforce a stop notice unless the claimant shall have given the preliminary twenty (20) day notice in accordance with Civil Code section 3098 if so required by that section. No stop notice will be effective unless it is served before the expiration of thirty (30) days after the recording of a notice of completion or notice of cessation, or if no notice is recorded, ninety (90) days after completion or cessation. The Contractor may substitute securities for any monies withheld under this section in compliance with the requirements of Public Contract Code Section 22300 and the provisions of the General Provisions pertaining to "Substitution of Securities."

SECTION 13. ALLOWABLE VARIATIONS

When in the Contract Documents a maximum or minimum either in size, percentage or thickness or relating to quality, character or other matter, is allowed or prescribed, the work shall be accepted as in compliance if within such maximum or minimum so allowed hereby.

SECTION 14. CHANGES IN WORK

All changes in the work shall comply with Section 3 of the Standard Specifications.

When extra work is to be paid for on a force account basis, the labor, materials, equipment rental and other items of expenditures, the percentage of markup applied to the Contractor's direct cost for all overhead and profit shall be in accordance with the General Provisions and subsection 3-3.2.3 of the Standard Specifications.

SECTION 15. MARK-UP

The following markups shall apply for all extra work requested by contract change order:

(a) Work by Contractor:

The following percentage shall be added to the Contractor's costs and shall constitute the markup for all overhead and profits:

| | |
|------------------------------|-----|
| Labor | 20% |
| Materials | 15% |
| Equipment Rental | 15% |
| Other items and Expenditures | 15% |

To the sum of the costs and markups provided for in this section, one percent (1%) shall be added as compensation for bonding.

(b) Work by subcontractor:

When all or any part of the extra work is performed by a subcontractor, the markup established in section (a) above shall be applied to the subcontractor's actual costs of such work, to which a markup of ten percent (10%) on the first \$2,000.00 of the subcontracted portion of the extra work, and a markup of five percent (5%) on the work added in excess of \$2000.00 of the Subcontracted portion of the extra work may be added by the Contractor.

SECTION 16. INCREASED OR DECREASED QUANTITIES

If the total pay quantity of any item of work varies by more than 25 percent, compensation payable to the Contractor will be determined in accordance with the applicable portions of Section 3 of the Standard Specifications.

When the compensation payable for the number of units of an item of work performed in excess of 125 percent of the City Engineer's Estimate is less than \$1,500 at the applicable contract unit price, the City Engineer reserves the right to make no adjustment in said price if he or she so elects, except that an adjustment will be made if requested in writing by the Contractor. Such Contractor's request shall be accompanied by adequate, detailed data to support costs of the item.

SECTION 17. PUBLIC UTILITIES

The provisions of Government Code section 4215 are incorporated herein. As required under Section 4215, the Contractor shall be compensated for the costs of locating, repairing damage not due to the failure of the contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the Project necessarily idled during such work. The contractor shall not be assessed liquidated damages for delay in completion of the Project, when such delay was caused by the failure of the City or the owner of the utility to provide for removal or relocation of such utility facilities. Notwithstanding the foregoing, the City is not required to indicate the presence of existing service laterals or

appurtenances whenever the presence of such utilities on the site of the Project can be inferred from the presence of other visible facilities.

SECTION 18. TRENCHING

- (a) To the extent that the Project requires trenching or excavations that extend deeper than four (4) feet below the surface, Public Contract Code section 7104 is hereby incorporated and the following provisions shall apply:
 - (i) The Contractor shall promptly notify the City in writing before the following conditions are disturbed: (1) material the Contractor believes may be hazardous waste as defined in Health and Safety Code section 25117; (2) subsurface or latent physical conditions at the site differing from those indicated by the City prior to the deadline for submitting bids; and (3) unknown physical conditions at the site of any unusual nature, materially different from those ordinarily encountered and generally recognized as inherent in the character of the work.
 - (ii) The City shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work, shall issue a change order under the procedures described in the Contract Documents.
 - (iii) In the event that a dispute arises between the City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.
- (b) To the extent that the Project involves an estimated expenditure in excess of twenty-five thousand dollars (\$25,000) and requires the excavation of any trench or trenches five (5) feet or more in depth, Labor Code section 6705 is hereby incorporated and the following provisions shall apply:
 - (i) Submission by the Contractor and acceptance by the City or the City Engineer of a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches is required in advance of excavation.
 - (ii) If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer.

SECTION 19. UNDERGROUND SERVICE ALERT

Except in an emergency, the Contractor prior to conducting any excavation or resurfacing shall contact the appropriate regional notification center, at least two working days prior to commencing that excavation or resurfacing. The regional notification center shall provide an inquiry identification number to the person who contacts the center and shall notify any member, if known, who has a subsurface installation in the area of the proposed excavation or resurfacing. Underground Service Alert may be contacted by calling 1-800-227-2600. The Contractor shall also notify the City of La Palma Public Works Department at (714) 690-3310.

In addition to and notwithstanding the foregoing, the Contractor is required to comply with all relevant provisions of Government Code section 4216 *et seq.* and all other laws regarding the relocation or disturbance of utilities. The Contractor's attention is specifically called to Government Code sections 4216.2, 4216.4 and 4216.6.

SECTION 20. LABOR CODE

- (a) Pursuant to applicable provisions of the Labor Code of the State of California, including Labor Code section 1773.2, not less than the general prevailing rate of per diem wages including legal holidays, and overtime work for each craft or type of worker needed to execute the work contemplated under the Contract Documents shall be paid to all workers employed on the work to be done according to this contract by the Contractor or any subcontractor and shall be deemed to include employer payments for health and welfare, pension, vacation and similar purposes. The City Engineer has on file the prevailing rate of per diem wages and will furnish the same to any interested party on request. A copy of the prevailing rate of per diem wages must be posted at each job site.
- (b) The provisions of Labor Code section 1776 are incorporated herein. As required under Section 1776, the Contractor and each subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following: (1) the information contained in the payroll record is true and correct; and (2) the employer has complied with the requirements of Labor Code sections 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.
- (c) The Contractor is aware of and will comply with the provisions of Labor Code Sections 1777.5 and 1777.6 with respect to the employment of apprentices.
- (d) Pursuant to Labor Code Section 1775, it is hereby stipulated that the Contractor shall, as a penalty to City, forfeit not more than \$50 (to be determined by the Labor Commissioner) for each calendar day, or portion

thereof, for each worker paid less than the prevailing rates as determined by the Director of the Department of Industrial Relations for the work or craft in which the worker is employed for the Project under the contract by Contractor or by any subcontractor under the Contractor. The Contractor shall be responsible to ensure that all contracts executed between the Contractor and the subcontractor for the performance of work on the Project shall include a copy of the provisions of Labor Code Sections 1771, 1775, 1776, 1777.5, 1813, and 1815.

- (e) Pursuant to Labor Code section 1810, it is stipulated hereby that eight (8) hours labor constitutes a legal day's work hereunder.
- (f) Pursuant to Labor Code Section 1813, it is stipulated hereby that the Contractor shall, as a penalty to the City, forfeit \$25 for each worker employed in the execution of this Contract by the Contractor or by any subcontractor hereunder for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one (1) calendar week in violation of the provisions of Article 3 (commencing with Section 1810), Chapter 1, Part 7, Division 2 of the Labor Code.
- (g) Pursuant to Labor Code section 1860, in accordance with the provisions of Section 3700 of the Labor Code, the Contractor and each subcontractor is required to secure the payment of compensation to its employees.
- (h) In accordance with Labor Code Section 1771.4, the Contractor shall furnish the records specified in Labor Code Section 1776 directly to the California Labor Commissioner at least monthly (or more frequently is specified in the Special Provisions) in a format prescribed by the Labor Commissioner. The Contractor shall also submit certified payrolls to the Engineer, including certified payrolls for all Subcontractors, at any tier, performing work on the site, regardless of the dollar amount of type of subcontract, if required by the Special Provisions.

SECTION 21. INELIGIBLE SUBCONTRACTORS

Pursuant to Public Contract Code section 6109, the Contractor is prohibited from performing work on the Project with a subcontractor who is ineligible to perform work on a public works project pursuant to Labor Code section 1777.1 or 1777.7. Any contract between the Contractor and an ineligible subcontractor for work on the Project is void as a matter of law. Any public money paid to the ineligible subcontractor by the Contractor shall be returned to the City.

SECTION 22. NOTIFICATION OF THIRD PARTY CLAIMS

The City and the Contractor shall each notify the other of the receipt of any third-party claims relating to the contract. This notification shall be made in writing within one (1) week from the receipt of the third-party claim.

SECTION 23. CLAIMS

This section shall apply to claims of \$375,000 or less arising between the City and the Contractor under this contract.

- (a) Pursuant to Public Contract Code Section 20104 *et seq.*, which is incorporated herein, the claim shall be in writing, include the documents necessary to substantiate the claim, and be filed with the City on or before the date of the final payment for the work. If the claim is less than \$50,000, the City shall respond in writing to the claim within 45 days of its receipt; or the City may request in writing within 30 days of receipt of the claim any additional documentation supporting the claim or relating to defenses or claims the City may have against the Contractor, and in such event the City's response shall be submitted to the Contractor within the later of 15 days after the receipt of the further documentation, or the time taken by the Contractor in producing the additional information.

If the claim is over \$50,000, the City shall respond in writing to the claim within 60 days of its receipt, or the City may request in writing within 30 days of receipt of the claim any additional documentation supporting the claim or relating to defenses or claims the City may have against the Contractor, and in such event the City's response shall be submitted to the Contractor within the later of 30 days after the receipt of the further documentation, or the time taken by the Contractor in producing the additional information or requested documentation.

- (b) If the Contractor disputes the City's written response, or if the City fails to respond within the prescribed time, to the claim, the Contractor may notify the City in writing within 15 days, and demand an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of the demand, the City shall schedule a meet and confer conference within 30 days. If the claim or any portion thereof remains in dispute following the meet and confer conference, the Contractor may file a claim pursuant to Government Code Section 900, *et seq.* For purposes of this paragraph, the running of the period of time within which a claim must be filed shall be tolled from the time the Contractor submits the claim until the time such claim is denied, including any period of time utilized by the meet and confer conference.
- (c) The following procedures shall apply to any civil action filed pursuant to this section.
 - (i) Nonbinding Mediation - Within 60 days, but no earlier than 30 days, following the filing of responsive pleadings, the court shall submit the matter to nonbinding mediation unless waived by mutual stipulation of both parties. The mediation process shall provide for the selection within 15 days by both parties of a disinterested third person as mediator, and shall be commenced within 30 days of the submittal and shall be concluded within 15 days from the commencement of the

mediation unless a time requirement is extended upon a good cause showing to the court.

- (ii) Judicial Arbitration - If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to Section 1141.10, *et seq.*, of the Code of Civil Procedure, notwithstanding Code of Civil Procedure Section 1141.11. The civil discovery procedure of Code of Civil Procedure Section 2016.010, *et seq.*, shall apply, consistent with the rules pertaining to judicial arbitration. In addition to the provisions of Code of Civil Procedure Section 1141.10, *et seq.*, (a) arbitrators shall, when possible, be experienced in construction law, and (b) any party appealing an arbitration award who does not obtain a more favorable judgment shall, in addition to payment of costs and fees, also pay the attorneys fees on appeal of the other party.
- (iii) Interest on Award or Judgment - In any suit filed pursuant to this section, the City shall pay interest at the legal rate on any arbitration award or judgment, which interest shall begin to accrue on the date the suit is filed in a court of law.

All claims not subject to this section must be presented to the City pursuant to Government Code section 910 *et seq.* The City shall take action with respect to any such claim as provided in Division 3.6 of Title 1 of the Government Code. Denial of such claim by the City shall be a prerequisite to the institution of any legal proceeding challenging the action(s) of the City.

SECTION 24. SUBSTITUTION OF SECURITIES

The provisions of Public Contract Code section 22300 are incorporated herein. At the request and expense of the Contractor, securities equivalent to any amount withheld by the City to ensure performance under the contract shall be deposited with the City, or with a state or federally chartered bank in this state as the escrow agent, who shall then pay those moneys to the Contractor. Upon satisfactory completion of the contract, the securities shall be returned to the Contractor. The Contractor shall bear all of the expense of the City and the escrow agent in connection with the establishment of an escrow account, the deposit of qualified securities into the escrow account, all statements and accounting relating to the escrow account, and the maintenance of the escrow account.

Securities eligible for investment under this section include those listed in Section 16430 of the Government Code, bank or savings and loan certificates of deposit, interest-bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the contractor and the public agency. The contractor shall be the beneficial owner of any securities substituted for moneys withheld and shall receive any interest thereon.

The Contractor shall, upon written notification to the City that the Contractor intends to open an escrow account with an escrow agent to deposit qualified securities as a substitute for retention of Contractor earnings required to be withheld by the City, notify the Surety in writing of such intention, and furnish the City with the written consent of the Surety to the utilization of such escrow account in lieu of periodic retention.

SECTION 25. ADDITIONAL SURETY

If during the continuance of the contract any of the sureties upon the faithful performance bond in the opinion of the City Engineer are or become insufficient, he or she may require additional sufficient sureties which the Contractor shall furnish to the satisfaction of the City Engineer within fifteen (15) days after notice, and in default thereof the contract may be suspended and the work completed as provided in Section 6 of the Standard Specifications.

SECTION 26. LIABILITY AND INDEMNIFICATION

The City and its officers, employees, agents, representatives, and the Engineer shall not be answerable or accountable in any manner, either individually or collectively for any loss or damage that may happen to the Work or any part thereof, or for any of the materials or other things used or employed in performing the Work, or for injury or damage to any person or persons, either workers, employees of Contractor or its subcontractors or the public, or for damage to adjoining or other property, from any cause whatsoever arising out of or in connection with the performance of the Project. The Contractor shall be responsible for any damage or injury to any person or property resulting from defects or obstructions or from any cause whatsoever arising out of or in connection with the performance of the Work, except the active negligence, willful misconduct of City, its agents, servants or independent contractors who are directly responsible to the City.

Contractor shall indemnify the City, the Engineer, and the respective City Councils, officers, employees, agents and representatives, against, and hold and save them and each of them harmless from, any and all actions, claims, damages to persons or property, penalties, obligations or liabilities that may be asserted or claimed by any person, firm, entity, corporation, political subdivision or other organization arising out of or in connection with the Project, operation or activities of Contractor, its agents, employees, subcontractors or invitee, provided for herein, whether or not there is concurrent passive or active negligence on the part of the City, its officers, directors, employees, agents, representatives, or the Engineer, but not to the extent such actions, claims, damages to persons or property, penalties, obligations or liabilities arising from the sole active negligence or willful misconduct of the City or City Personnel or independent contractors who are directly responsible to City; and in connection therewith:

- (a) Contractor shall defend any action or actions filed in connection with any of such claims, damages, penalties, obligations or liabilities, and shall pay all costs and expenses, including attorneys' fees, incurred in connection therewith.
- (b) Contractor shall promptly pay any judgment rendered against Contractor or the City or City Personnel or independent contractors who are directly responsible to City covering such claims, damages, penalties, obligations and liabilities arising out of or in connection with such work, operations, or activities of Contractor hereunder, and Contractor shall save and hold the City harmless there from.

- (c) In the event the City is made a party to any action or proceeding filed or prosecuted against Contractor for such damages or other claims arising out of or in connection with the work, operation or activities of Contractor hereunder, Contractor shall pay to the City any and all costs and expenses incurred by the City in such action or proceeding, together with reasonable attorneys' fees. If the City is so named as a party to any such action, the City can elect to be represented by counsel of its choosing and Contractor shall be responsible to reimburse the City for all reasonable fees and costs associated with that representation.
- (d) So much of the money due to the Contractor under and by virtue of the Contract as shall be considered necessary by the City may be retained by the City until disposition has been made of such actions or claims for damages as aforesaid.

SECTION 27. PERSONAL LIABILITY

Neither the City, the City Engineer, nor City Personnel shall be personally responsible for any liability arising under the Contract.

SECTION 28. LEGAL ACTIONS AGAINST THE CITY

In the event litigation is brought against the City concerning compliance by the City with State or Federal laws, rules or regulations applicable, the provisions of this section shall apply:

- (a) If, pursuant to court order, the City prohibits the Contractor from performing all or any portion of the work, the delay will be considered a right of way delay within the meaning of Subsection 6-6 of the Standard Specifications unless the contract is terminated as hereinafter provided, in which event compensation payable to the Contractor shall be determined in accordance with said termination provisions.
- (b) If, pursuant to court order (other than an order to show cause), the City is prohibited from requiring the Contractor to perform all or any portion of the work, the City may, if it so elects, eliminate the enjoined work pursuant to Section 3 of the Standard Specifications or terminate the contract in accordance with Subsections 6-3 and 6-5 of the Standard Specifications.
- (c) If the final judgment in the action prohibits the City from requiring the Contractor to perform all or any portion of the work, the City will either eliminate the enjoined work pursuant to Section 3 of the Standard Specifications or terminate the contract in accordance with Subsections 6-3 and 6-5 of the Standard Specifications.

SECTION 29. INSURANCE

The Contractor shall not commence work under the Contract Documents until it has secured all types and amounts of insurance required under the Contract Documents, nor shall it allow any subcontractor to commence work on its subcontract until any such

subcontractor has obtained the same insurance required of the Contractor under the Contract Documents. Without limiting Contractor's indemnification obligations, Contractor shall procure and maintain, at its sole cost and for the duration of Project until a notice of completion is issued by the City Engineer, insurance coverage as provided below, against all claims for injuries against persons or damage to property which may arise from or in connection with the performance of the work hereunder by Contractor, its agents, representatives, employees, and/or subcontractors. In the event that Contractor subcontracts any portion of the work, the contract between the Contractor and such subcontractor shall require the subcontractor to maintain the same policies of insurance that the Contractor is required to maintain pursuant to this Section. Contractor acknowledges that the insurance coverage and policy limits set forth in this section constitute the minimum amount of coverage required. Any insurance proceeds in excess of the limits and coverage required in this agreement and which is applicable to a given loss, will be available to the City. The provisions of this Section 29 replace the provisions of Standard Specifications subsection 7-3.

- (a) Insurance Coverage Required: Contractor shall provide the following types and amounts of insurance.
 - (i) Commercial General Liability Insurance. Contractor shall use Insurance Services Office "Commercial General Liability" policy form CG 00 01, with an edition date prior to 2004, or the exact equivalent. Coverage for an additional insured shall not be limited to its vicarious liability. Defense costs must be paid in addition to limits. Limits shall be no less than Three Million Dollars (\$3,000,000.00) per occurrence for all covered losses and no less than Five Million Dollars (\$5,000,000.00) general aggregate.
 - (ii) Workers' Compensation. Contractor shall use a state-approved policy form providing statutory benefits as required by law with employer's liability limits no less than One Million Dollars (\$1,000,000.00) per accident for all covered losses.
 - (iii) Business Auto Coverage. Contractor shall use ISO Business Auto Coverage form CA 00 01 including owned, non-owned and hired autos, or the exact equivalent. Limits shall be no less than One Million Dollars (\$1,000,000.00) per accident, combined single limit. If Contractor owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the general liability policy described above. If Contractor or Contractor's employees will use personal autos in any way on this Project, Contractor shall obtain evidence of personal auto liability coverage for each such person.
 - (iv) Excess or Umbrella Liability Insurance (Over Primary). If excess or umbrella liability insurance is used to meet limit requirements, Contractor shall provide coverage at least as broad as specified for the underlying coverages. Such policy or policies shall include as insureds those covered by the underlying policies, including additional insureds. Coverage shall be "pay on behalf", with defense costs

payable in addition to policy limits. There shall be no cross liability exclusion precluding coverage for claims or suits by one insured against another. Coverage shall be applicable to City for injury to employees of Contractor, subcontractors, or others involved in the work. The scope of coverage provided is subject to approval of City following receipt of proof of insurance as required herein.

(b) Contractor's Insurance General Requirements:

- (i) Shall be issued by an insurance company that is an admitted carrier in the State of California and maintains a Secure Best's Rating of "A-" or higher; unless otherwise approved by the City;
- (ii) Commercial General Liability, Business Auto Coverage and Excess or Umbrella Liability shall name the City, and its officers, officials, employees, agents, representatives and volunteers (collectively "City Personnel") as additional insureds and contain no special limitations on the scope of protection afforded to City or City Personnel. All insurance provided hereunder shall include the appropriate endorsements.
- (iii) Shall be primary insurance and any insurance or self-insurance maintained by the City and/or City Personnel shall be in excess of Contractor's insurance and shall not contribute with it.
- (iv) Shall be "occurrence" rather than "claims made" insurance.
- (v) Shall apply separately to each insured against whom a claim is made or suit brought, except with respect to the limits of the insurer's liability.
- (vi) Shall be endorsed to state that the insurer shall waive all rights of subrogation against City and City Personnel.
- (vii) Shall be written by good and solvent insurer(s) admitted to do business in the State of California and approved in writing by City.
- (viii) Shall be endorsed to state that coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits, non-renewed, or materially changed for any reason, without thirty (30) days prior written notice thereof given by the insurer to the City by U.S. mail, or by personal delivery, except for nonpayment of premiums, in which case ten (10) days prior notice shall be provided.

(c) Deductibles: Any deductibles or self-insured retentions must be declared to and approved by City prior to the execution of the Agreement by City.

(d) Evidence of Coverage: The Contractor shall furnish the City with endorsed certificates of insurance demonstrating the coverage required by this

Section which shall be received and approved by City not less than five (5) working days before work commences.

SECTION 30. INTEGRATION

No oral order, objection, claim or notice by any party to the other shall affect or modify any of the terms or obligations contained in any of the Contract Documents and none of the provisions of the Contract Documents shall be held to be waived or modified by reason of any act whatsoever, other than by a definitely agreed waiver or modification thereof in writing, and no evidence shall be introduced in any proceeding of any other waiver or modification. Contractor hereby acknowledges that no oral statement can be reasonably relied on and shall not be relied on for any equitable claim.

The Contract Documents represent the entire understanding of the City and the Contractor as to those matters contained therein, and no prior oral or written understanding shall be of any force or effect with respect to those matters covered by the Contract Documents.

SECTION 31. INDEPENDENT CONTRACTOR STATUS

The City hereby engages Contractor as an independent contractor for the sole purpose of performing the work related to the Project. Contractor shall perform the services on the terms and conditions set forth herein. Contractor is an independent contractor, and nothing in this Contract or in the relationship between the City and the Contractor shall constitute a partnership, joint venture, agency or any other similar relationship.

SECTION 32. SALES AND/OR USE TAXES

Except as may be otherwise specifically provided herein, all sales and/or use taxes assessed by Federal, State or local authorities on materials used or furnished by the Contractor in performing the work hereunder, shall be paid by the Contractor.

SECTION 33. RECOVERY OF ANTI-TRUST CLAIMS

In submitting a bid to the City, the Contractor offers and agrees that if the bid is accepted, it will assign to the City all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the Contractor for sale to the City pursuant to the bid. Such assignment shall be made and become effective at the time the City tenders final payment to the Contractor.

SECTION 34. ASSIGNMENT

The Contractor shall not assign, transfer, convey, sublet or otherwise dispose of this contract or of its rights, title or interest in or to the same or any part thereof, without the previous consent in writing of the City. The Contractor shall not assign, by power of attorney or otherwise, any of the monies to become due and payable under the contract unless by and with the like consent signified in like manner. If the Contractor shall, without previous written consent, assign, transfer, convey, sublet or otherwise dispose of the

contract or its right, title or interest therein, or of any of the monies to become due under the contract, to any other person, company, or other corporation, such attempted or purported assignment, transfer, conveyance, sublease or other disruption shall be null, void and of no legal effect whatsoever. In such event the contract may, at the option of the City, be terminated, revoked and annulled, and the City shall thereupon be relieved and discharged from any and all liability and obligations growing out of the same to the Contractor, and to its purported assignee or transferee. No right under the contract, nor any right to any money to become due hereunder, shall be asserted against the City in law or equity by reason of any purported assignment of the contract, or any part thereof, or by reason of the purported assignment of any monies to become due hereunder, unless authorized as set forth herein by written consent of the City. If the City consents to any assignment of the contract, or any part thereof, and the contract or part thereof is in fact assigned, all rights and obligations under the Contract Documents will be of full force and effect as to both the Contractor as Assignor and the Contractor's Assignee unless the City agrees otherwise in writing.

SECTION 35. PERMITS AND LICENSES

The Contractor shall procure all permits and licenses, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of the work.

The California Environmental Quality Act may be applicable to permits, licenses and other authorizations which the Contractor must obtain from local agencies in connection with performing the work of the contract. The Contractor shall comply with the provisions of said statutes in obtaining such permits, licenses and other authorizations and they shall be obtained in sufficient time to prevent delays to the work.

In the event that the City has obtained permits, licenses or other authorizations applicable to the work, in conformance with the requirements in said California Environmental Quality Act, the Contractor shall comply with the provisions of said permits, licenses and other authorizations.

SECTION 36. PUBLIC SAFETY AND PUBLIC PROTECTION

The attention of the Contractor is directed to subsection 7-10.4 of the Standard Specifications and is cautioned that the Standard Specifications apply to demolition and/or removal work as well as construction work. Strict compliance with State and local safety requirements will be enforced.

The Contractor is required to make whatever the provisions are necessary to protect the public. The Contractor shall use foresight and shall take such steps and precautions as his or her operation warrant to protect the public from danger, loss of life or loss of property, which would result from interruption of or contamination to the public water supply, interruption of other public utility services, or from the failure of partly completed work or partially removed facilities. Unusual conditions may arise on the work which require that immediate and unusual provisions be made to protect the public from danger or loss or damage to life and property, due directly to protection of work under this contract.

Whenever, in the opinion of the City Engineer, an emergency exists as a result of the Contractor's activity that threatens public safety, utilities and adjacent structures or property, immediate action shall be considered necessary in order to protect or property, the City Engineer will order the Contractor to provide a remedy for the unsafe condition. If the Contractor fails to act within a reasonable time, the City Engineer may provide suitable protection by causing such work to be done and material to be furnished as deemed reasonable and necessary.

The cost and expense of said labor and material together with the cost and expense of such repairs as are deemed necessary shall be borne by the Contractor.

SECTION 37. TERMINATION

The City may terminate the contract at its own discretion or when conditions encountered during the work make it impossible or impracticable to proceed, or when the proceeding under the contract is prevented by law, an act of God, or an official action of a public authority. Termination of the contract and the total compensation payable to the Contractor in the event of termination shall be governed by the following:

- (a) The City Engineer will issue the Contractor a written notice specifying that the contract is to be terminated. Upon receipt of said written notice and, except as otherwise directed in writing by the City Engineer, the Contractor shall:
 - (i) Stop all work under the contract, except that specifically directed to be completed prior to acceptance.
 - (ii) Perform work the City Engineer deems necessary to secure the Project for termination.
 - (iii) Remove equipment from the site of the work.
 - (iv) Take such action as is necessary to protect materials from damage.
 - (v) Notify all subcontractors and suppliers that the contract is being terminated and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the City Engineer.
 - (vi) Provide the City Engineer with an inventory list of all materials previously produced, purchased or ordered from suppliers for use in the work and not yet used in the work, including its storage location and such other information as the City Engineer may request.
 - (vii) Dispose of materials not yet used in the work as directed by the City Engineer. It shall be the Contractor's responsibility to provide the City with good title to all materials purchased by the City hereunder, including materials for which partial payment has been made as provided in Subsection 9-3.2 of the Standard Specifications, and with bills of sale or other documents of title for such materials.

- (viii) Subject to the prior written approval of the City Engineer, settle all outstanding liabilities and all claims arising out of subcontracts or orders for materials terminated hereunder. To the extent directed by the City Engineer, the Contractor shall assign to the City all the right, title and interest of the Contractor under subcontracts or orders for materials terminated hereunder.
 - (ix) Furnish the City Engineer with the documentation required to be furnished by the Contractor under the provisions of the contract including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the contract.
 - (x) Take such other actions as the City Engineer may direct.
- (b) The total compensation to be paid to the Contractor following termination shall be determined by the City Engineer on the basis of the following:
- (i) The reasonable cost to the Contractor, without profit, for all work performed under the contract, including mobilization, demobilization and work done to secure the Project for termination. Reasonable cost will include a reasonable allowance for Project overhead and general administrative overhead not to exceed a total of seven percent (7%) of direct costs of such work.

When in the opinion of the City Engineer, the cost of a contract item of work is excessively high due to costs incurred to remedy or replace defective or rejected work, the reasonable cost to be allowed will be the estimated reasonable cost of performing such work in compliance with the requirements of the plans and specifications and the excessive actual cost shall be disallowed.

- (ii) A reasonable allowance for profit on the cost of the work performed as determined under Subsection (a), provided the Contractor establishes to the satisfaction of the City Engineer that it is reasonably probable that he or she would have made a profit had the contract been completed and provided further that the profit allowed shall in no event exceed four percent (4%) of said cost.
- (iii) The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the City or otherwise disposed of as directed by the City Engineer.
- (iv) A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the contract. All records of the Contractor and his or her subcontractors, necessary to determine compensation in accordance with the provisions of this section, shall be open to inspection or audit by representatives of the

City at all times after issuance of the notice that the contract is to be terminated and for a period of three years, and such records shall be retained for that period.

- (v) After acceptance of the work by the City Engineer, the City Engineer may make payments on the basis of interim estimates pending issuance of the Final Estimate when in his or her opinion the amount thus paid, together with all amounts previously paid or allowed, will not result in total compensation in excess of that to which the Contractor will be entitled. All payments, including payment upon the Final Estimate shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the contract.
- (c) Acceptance of the terminated contract as specified shall not relieve the Contractor of responsibility for damage to materials except as follows:
 - (i) The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Subsection 9-3.2 of the Standard Specifications, and for materials furnished by the City for use in the work and unused, shall terminate when the City Engineer certifies that such materials have been stored in the manner and at the locations he or she has directed.
 - (ii) The Contractor's responsibility for damage to materials purchased by the City subsequent to the issuance of the notice that the contract is to be terminated shall terminate when title and delivery of such materials has been taken by the City.
 - (iii) When the City Engineer determines that the Contractor has completed the work under the contract directed to be completed prior to termination and such other work as may have been ordered to secure the Project for termination, he or she will recommend that the City Engineer formally accept the contract, and immediately upon and after such acceptance by the City Engineer, the Contractor will not be required to perform any further work thereon and shall be relieved of his or her contractual responsibilities for injury to persons or property which occurs after the formal acceptance of the Project by the City Engineer.
- (d) The provisions of this Section 37 shall be included in all subcontracts.

SECTION 38. MAINTENANCE AND GUARANTEE

- (a) The Contractor hereby guarantees that the entire work constructed by him or her under the contract will meet fully all requirements of the Contract Documents and the Standard Specifications incorporated herein as to quality of workmanship and of materials furnished by him or her. The Contractor hereby agrees to make at his or her own expense any repairs or

replacements made necessary by defects in materials or workmanship supplied to him or her that become evident within one (1) year after the date of final payment, and to restore to full compliance with the requirements of these specifications including the test requirements set forth herein for any part of the work constructed hereunder which during said one (1) year period is found to be deficient with respect to any provisions of the specifications. The Contractor also agrees to indemnify and hold the City and City Personnel harmless from claims of any kind arising from damage due to said defects. The Contractor shall make all repairs and replacements promptly upon receipt of written orders for the same from the City Engineer. If the Contractor fails to make the repairs and replacements promptly, the City may do the work and the Contractor and his or her surety shall be liable to the City for the cost thereof.

- (b) The guarantees and agreements set forth in subsection (a) hereof shall be secured by a surety bond which shall be delivered by the Contractor to the City before the notice of completion and acceptance of the work by the City Engineer, as provided in subsection 6-8 of the Standard Specifications. Said bond shall be in an approved form by the City Attorney and executed by a surety company or companies satisfactory to the City in the amount of one hundred percent (100%) of the contract. Said bond shall remain in force for a period of one (1) year after the date of said notice of completion and acceptance. Instead of providing such a bond as described above, the Contractor may, at his or her option, provide for the faithful performance bond furnished under the contract to remain in force and effect for said amount until the expiration of said one (1) year period.

SECTION 39. LIQUIDATED DAMAGES

Subsection 6-9 of the Standard Specifications is hereby amended as follows:

- (a) Failure of the Contractor to complete the work within the time frames, Phases (PH 1 and PH 2) allowed will result in damages being sustained by the City. Such damages are, and will continue to be, impracticable and extremely difficult to determine. For each consecutive calendar day in excess of the time specified for completion of the work (as adjusted), the Contractor shall pay to the Agency, or have withheld from monies due it, the sum of eight hundred dollars (\$800.00).

Execution of the contract under these specifications shall constitute agreement by the City and Contractor that eight hundred dollars (\$800.00) per day is the minimum value of the costs and actual damage caused by failure of the Contractor to complete the work within the allotted time, that such sum is liquidated damages and shall not be construed as a penalty, and that such sum may be deducted from payments due the contractor if such delay occurs.

- (b) In addition to the liquidated damages specified, if the Contractor fails to complete the work within the time specified for completion, plus any authorized time extensions, the Agency shall have the right to charge to the Contractor all or any part, as it may deem proper, of the actual costs of

inspection, supervision and other overhead expenses that are directly chargeable to the Project and that accrue after the expiration of such specified time for completion plus authorized extensions. This charge will be in addition to the payment of liquidated damages.

SECTION 40. PROVISIONS REQUIRED BY LAW DEEMED INSERTED

Each and every provision of law and clause required by law to be inserted in the Contract Documents, which is not so inserted, shall be deemed to be inserted herein and the contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon application of either party the contract shall forthwith be physically amended to make such insertion or correction.

SECTION 41. MISCELLANEOUS PROVISIONS

- (a) Governing Laws: The Contract Documents shall be construed and interpreted in accordance with and shall be governed and enforced in all respects according to the laws of the State of California.
- (b) No Waiver: The waiver by any party of a breach of any provision of the Contract Documents shall not be deemed a continuing waiver or a waiver of any subsequent breach whether of the same or of another provision hereof.
- (c) Attorneys' Fees: If any legal action is necessary to enforce or interpret the terms of the Contract Documents, the prevailing party shall be entitled to reasonable attorney's fees, expert witness fees, costs, and necessary reimbursements in addition to any other relief to which said party may be entitled.
- (d) Authority to Execute: The persons executing the Contract Documents on behalf of each party warrant that he/she is duly authorized to execute and deliver the Contract Documents on behalf of the respective party for whom he/she signs, and that by so executing the Contract Documents, each party is bound by the provisions of the Contract Documents.
- (e) Severability: If any term, provision, covenant or condition of the Contract Documents is held to be invalid, void or otherwise unenforceable, to any extent, by any court of competent jurisdiction, the remainder of the Contract Documents shall not be affected thereby, and each term, provision, covenant or condition of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

Allow all areas to be worked to completely dry.
17. Apply SMARTCOAT 200 Bleed Blocker to all asphaltic-based surfaces to receive the coating restoration materials at a rate of 1 - 1 ½ gallons per 100 square feet. DO NOT APPLY 200 OVER ANY SILICONE MATERIALS. DO NOT puddle. Allow to fully cure.

Apply in multiple coats on sloped or vertical surfaces to achieve specified mils. Generally about 2/3 of a gallon per coat per 100 square feet will hang on a vertical surface without dripping or sagging.

Generally about 2/3 of a gallon per coat per 100 square feet will hang on a vertical surface without dripping or sagging. NOTE: An adhesion test should be done on the walls; however, the SMARTCOAT 450 usually direct-bonds well to sound, clean, and dry plaster.
25. Apply 2nd coat SMARTCOAT 450 of material in contrasting colors where granulating at a rate of 1 gallon per 100 square feet. Into wet second coat, broadcast to refusal / rejection / saturation No 11 ceramic roofing granules. Granulate in all areas where slip hazards exist, including, but not limited to, edges without parapet walls, around equipment, on walkways to and from equipment, around skylights, around roof hatches, around trip hazards, around

impaling hazards, etc. In large areas receiving granules, split the application of the specified 450 into 2 coats. Apply first coat at 1 gallon per 100 square feet and second coat at 1 gallon per 100 square feet for a 15 year warranty and apply first coat at 1 ½ gallons per 100 square feet and second coat at 1 gallon per 100 square feet for a 20 year warranty. Typically, 35-40 lbs per 100 square feet of granules are required to fully cover. Loose granules should be blown off the next day and can be reused if they are dry and clean.
